

RIQTECH

MODEL RS-100 TABLE TOP BAND SEALER WITH CONVEYOR

RS-100-C table top band sealer with conveyor is ideal for sealing small and big bags up to 20 lbs and 30" in height. Sealer can easily take off stand and sit on table to seal small bags, when finish you can easily mount on stand with conveyor to seal heavy bags. It's a dual purpose sealer constructed with stainless steel, anodized aluminum and HRS steel and build for 24/7 operation.

RS100-C is very easy to use, plug in power cord to require voltage, power on, set temperature on our easy to use omron temperature controller and begin sealing bags when temperature reaches set value, no need to set speed since it is a fixed speed sealer that runs 200 IPM .

(140 IPM and 235 IPM also available upon request)

We use 5" sealing bars on our table top band sealer which will seal a wide range of bags up to 20 mil in thickness depending on material.
